GAMFRAME RACE SIMULATOR

smart design & newest technology

**ultrastrong
vibration**

>>> GET IN

Our solution for superior events with less space. The racing simulator "Gameframe", manufactured by high grade steel in state-of-the-art design, provides your guests with racing fun pure.

Integrated 5.1 Sound in combination with ultra strong bodyshaker and newest Force-Feedback-Technology enable exciting and realistic racing simulations in a new dimension. The elegant steel construction, the original, adjustable racing-seat, which enable racing action even in a suit or evening dress carry the Gameframe to the optimum solution for superior events.

Thrilling network-races up to 6 simulators are possible.

In combination with a huge audience-screen and our moderation, this will be big fun - everytime.
